

# BROKEN STEP RECORDS

The growing frustration of approaching mid life crisis forced us into building a studio. Wer'e old AND cheap, & never threw anything away, so we have this hybrid analogue/digital studio to play around in. The coolest clubhouse ever! Located in a top secret location by meth labs in a small town in NE Iowa.

We have vintage Ampex 1/2 track mastering capabilities along with Alesis mastersuite technology available.

This is the new stuff Doc is still trying to figure out. Despite this fact we make some awesome recordings. Just turn the knobs until it sounds good!

We have a fine collection of amps, Fender Bassman, Gibsonette, Supro deluxe and YOUR gear to boot! Bring in your AXE and let her rip! Bubba might even fix you some viddles when he hears the noise next door!

We have a vintage 1972 Rogers set in KOA finish plugged into Alesis D-4 triggers for that KILLER drum sound you just can't get anywhere else! Sorry boys...you can't take them home with you!

Keyboardists: We have vintage Kurzweil 1000X's keyboard and horn suites along with a G-4 loaded with Atmosphere, Stylus and all the analogue Roland stuff you can ever want!

**Bookings: 563-920-1823**

Remember it's a top secret location, we ain't tellin where we are!

Dr. Clay has been twiddling knobs here for 4 years now. He will twist them for you, unless you think you can do it better, just don't tell Doc.... Call for details on the money thing...
